DETAILED ACTION

Receipt is acknowledged of applicants' Amendment filed on July 13, 2001.

Reissue Applications

Claims 1-4 and 10-19 are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251 and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

Applicants are seeking a reissue of U.S. Patent Number 5,443,833 issued on August 22, 1995. U.S. Patent Number 5,443,833 contains Claims 1-3, which are drawn to a method of treating a reversible obstructive airway disease. The instant reissue application contains the same three claims as well as Claims 4-13. Claims 4-13 were present in the prosecution of the original application but were cancelled after a final rejection filed February 13, 1995. The scope of the Claims 4-13 is broader than Claims 1-3 being that Claims 4-13 are drawn to methods of treating conjunctivitis, keratitis,

Art Unit: 1615

allergic eyes and anterior uveitis. These claims are drawn to subject matter that was surrendered during the original prosecution of the application.

Applicants' understanding of these facts is evidenced in their Reissue Declarations filed with the instant application, more specifically in Paragraphs 7 and 8 of the Declarations. Therefore, Claims 1-13 cannot be allowed in the instant reissue application because the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application.

Response to Arguments

Applicant's arguments filed July 13, 2001 have been fully considered but they are not persuasive. Applicants argue that the instant claims are narrowing in all aspects.

It is the position of the Examiner that the claims admittedly have distinguishing features but these features fail to patentably define or distinguish the claims over the scope of the claims that were cancelled in order to obtain the patent in the parent application.
